

-SEEKING PART- TIME ASSOCIATES-

Interested in joining our research team and administering assessments to children?

brainLENS (Hoeft Laboratory for Educational NeuroScience, [brainLENS.org](http://brainlens.org)) at UCSF combines cutting edge, interdisciplinary research methods with a deep passion for maximizing children's potential in life. UCSF is a premier biomedical research institution, ranked second in the world for Neuroscience and Behavior by US News. UCSF brainLENS currently runs a Learning Success Program (<http://brainlens.org/learning>), evaluating language, cognitive, and brain development in children in immersion and general education schools K-3rd Grade.

We are currently recruiting for the following positions for the Learning Success Program:

Cantonese/Spanish Neuropsychological Assessor (Learning Success Program; 8-16 hrs/month, weekends):

- *Description:* We are in need of assessors to administer neuropsychological/psychoeducational evaluations in Spanish or Cantonese on weekends in Fall 2017. This is an excellent opportunity for those who are enthusiastic about: (1) working with children and their families, (2) learning to administer neuropsychological and psychoeducational tests, and (3) being involved in cutting edge interdisciplinary research.
 - *Requirements:* Fluency in Cantonese or Spanish required; Availability on weekends, approximately 16 hours/month; Ability to commute to San Francisco; Must be able to start July 2017 for training
-

If interested in any of the above positions, please send your CV and a cover letter outlining your interests to brainLENS@ucsf.edu with "[Your Name][Bilingual Tester] Application" in the subject line. Candidates may be asked to come in for interviews and provide letters of recommendation as next steps. Please feel free to contact us if you have any questions.
